A Message from Lake of the Woods School

September 28, 2020

Today we were notified by local public health and the Minnesota Department of Health (MDH) of a lab-confirmed case of COVID-19 in a member of Lake of the Woods School community with an exposure date of September 25. For privacy reasons, we cannot share details about the status of the person. At this time, they have been advised to stay home and away from other people (isolate).

We have worked with MDH to identify and notify those who had close contact with the person who has COVID-19. The risk of exposure for other people present in the building on that date is not greater than the risk of contracting the virus in the general community.

If you or your child were not notified that you had close contact with the person, you should still monitor for symptoms of the illness, but do not need to stay home unless symptoms develop. If symptoms develop, stay home and consult with your health care provider to determine if medical evaluation is needed.

We will continue to work closely with local public health and MDH to monitor the situation. If you have any questions, please contact Jeff Nelson, Superintendent at 218-634-2510, extension 1506 or Tiarra Shaw, School Nurse at extension 1522.

Thank you for helping to keep our school community safe.
